EXPERIENCE

Crystaltech Services Private Limited | Web Developer

Dec 2025 – May 2026

- **Tech Stack:** React.js, JavaScript, Node.js, REST APIs, HTML5, CSS3, Git
- Built and maintained **responsive, scalable web applications** using React.js, Node.js, and REST APIs with a focus on performance and cross-browser compatibility.
- Developed **REST APIs, CMS integrations, dynamic features, and SEO optimizations** throughout the software development lifecycle (SDLC).

PROJECTS

NEXIQ | *React.js, FastAPI, MongoDB, LLM APIs, JWT, SSE* [Link](#)

2026

- Created a full-stack **AI assistant platform** using React.js, FastAPI, MongoDB, and LLM APIs with scalable RESTful architecture.
- Implemented **Server-Sent Events (SSE)** for real-time token streaming, enabling low-latency LLM responses and conversational interactions.
- Secured application access through **JWT authentication**, bcrypt password hashing, and HTTP-only cookies for protected sessions and API endpoints.
- Established **multi-conversation management, token tracking, analytics dashboards, and AI-generated metadata** for persistent AI workflows.

NeuroNotes | *React.js, TypeScript, Vite, Supabase, Tiptap, Gemini, SSE* [Link](#)

2026

- Built a full-stack **AI-powered note-taking platform** with a context-aware Gemini assistant, integrating active Tiptap notes for intelligent document interactions.
- Engineered **real-time SSE streaming** for token-by-token LLM responses with Markdown rendering, achieving **~0.6s time-to-first-token**.
- Developed AI workflows for **summarization, expansion, outlining, flashcards, LinkedIn posts, and grammar correction**, plus resilient voice dictation using Web Speech API.
- Designed a **serverless backend** with Supabase Edge Functions, PostgreSQL, and Auth, implementing secure authenticated streaming APIs and production deployment.

EDUCATION

Madhav Institute of Technology & Science, Gwalior

Nov 2022 – June 2026

B.Tech in Information Technology; GPA: 8.04

Sankalp Higher Secondary School, Sausar

June 2021

Higher Secondary (Class XII); Percentage: 86%

Skyline School, Sausar

June 2019

Secondary (Class X); Percentage: 92%

SKILLS

Languages: C++, JavaScript (ES6+)

Web Technologies: HTML5, CSS3, Tailwind CSS, Bootstrap, Node.js, Express.js

Frameworks: ReactJS, FastAPI

Database: MySQL

Core: Data Structures & Algorithms, Object-Oriented Programming (OOPs), DBMS, Front-End Development

Tools & Platforms: Git, GitHub, VS Code, Postman, n8n

AI/GenAI: LLMs, Generative AI, RAG, AI Agents, Prompt Engineering

AI Tools: Claude Code, ChatGPT, GitHub Copilot, Cursor, Gemini, Lovable, v0, Replit

ACHIEVEMENTS

Competitive Programming: Solved **700+ DSA problems across multiple platforms** — **200+ LeetCode** (Rating: **2132**), **150+ GeeksforGeeks**, **3-Star CodeChef**, and **5-Star HackerRank** — demonstrating strong **algorithmic thinking, problem-solving, and competitive programming** skills.

TECHgium® 9th Edition – L&T Technology Services: Earned a **Certificate of Recognition** for proposing an innovative **AI-Powered Cybersecurity Framework**, applying AI-driven approaches to real-world cybersecurity challenges.

HackVega 2.0 – myCareerNet (HirePro): Successfully participated in a nationwide hackathon featuring **47,000+ engineering students**, competing to solve real-world technology challenges and demonstrate problem-solving and technical skills.

HackerRank – Software Engineer Intern Certification: Passed the **Software Engineer Intern** role certification test, validating strong **problem-solving, programming, and software engineering** fundamentals.
